DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,7,8 and 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by the disclosed Japanese Patent Application: JP 8189667 (Masayuki et al). Masayuki discloses an air conditioning system comprising: an adsorbent (2) in fluid communication with a condenser and heat exchanger device (18), a compressor (1), a cooling unit (4) and furthermore the adsorbent is in fluid communication with an air inlets (9,11) and an air outlets (8,10).

Allowable Subject Matter

Claim 3 is allowed over the prior art of record.

Claims 4-6 & 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
